THE STORY

What About You, Lord? is a collection of soulful, blues-influenced songs exploring faith, doubt, longing, and the mysteries of our relationship with God. Moving between intimate reflections, expressive duets, and gospel-tinged rhythms, the album approaches spirituality as an ongoing conversation rather than a collection of settled answers.

Sometimes that conversation is grateful. Sometimes it's frustrated. Sometimes it's simply a question sent into the silence, hoping someone is listening. These are songs about searching, wondering, and reaching beyond ourselves, without pretending that every question has an easy answer.
